

**INTERNAL USE ONLY**

DDA QUARTERLY MEETING

Outline of PSD Presentation

Objective: Establish Effective Applicant Data Exchange Between  
PSD and SPD

Impetus : DDA Objective to Accomplish More With Less Through  
Applied Technology

I. Background

- A. Addition of California Psychological Inventory (CPI) to PATB.
- B. CPI sensitivity to stability/suitability.
- C. Need to explore CPI data via interview.
- D. SPD (SSB) possesses interview access.

II. Present Status

- A. SPD (SSB) wants to provide analyzed CPI data to psychiatric interviewers.
- B. PSD can provide analyzed CPI data (CPI reports) nlt 31 May 1985.

III. System Characteristics

- A. SPD (SSB) initiates all report requests.
- B. SPD (SSB) immediately receives CPI report on PATB field-tested individuals.

IV. Milestones

- A. 1st Quarter  
Delivery of equipment and parts to SSB/SPD still incomplete as of February, 1985.
- B. 2nd Quarter  
C/SPD and C/PSD exchange data via AIM.

**INTERNAL USE ONLY**

**INTERNAL USE ONLY**

C. 3rd Quarter

1. Software to generate CPI reports ready nlt 31 May 1985.
2. Report transmission software already operating in support of OP selection processing (PATB reports).

D. 4th Quarter

"Shakedown" testing may begin in 3rd Quarter if SPD/SSB is properly equipped.

V. Future

- A. Develop standardized feedback system from psychiatric interviews.
- B. Employ feedback to perfect CPI report.
- C. Consider validity studies between psychiatric findings and CPI reports.
- D. Consider validity studies between proposed CAD psychiatric evaluations (3-year probationary period using MMPI-like test and CPI data (CPI scoreable for MMPI-like variables)).
